I have data on a large Italian firm's employees over ten years and I would like to see how the gender gap in male-female earnings has changed over time. For this purpose I run pooled OLS: y_{it} ...

hypothesis testing - How to keep time invariant variables ...

While sample-induced endogeneity is unlikely given our use of the entire S&P 500 firms, there is a possibility of omitted variable endogeneity in our study (Certo et al., 2016). For a panel data, a two-stage estimation approach is often recommended using the xtivreg command Stata (Cameron & Trivedi, 2010). However, given our binary outcome ...
